

IDEAS & EXAMPLES CATALOG

Custom 3D printing - made in Brooklyn, shipped across the USA

What will you make real?

Architectural models - Product prototypes - Classroom sets - Displays - Custom parts

Images in this catalog are concept renders and print-file previews, not photographs of completed customer work.

Every project is quoted individually. No address visits - we ship to you, free anywhere in the U.S.

Architectural models & real estate

Scale models that make a building easier to explain, explore, and share. Start with your plans, dimensions, or a 3D file, and we review the right scale and level of detail for your project.

Concept render - not a photograph of completed customer work.

Popular for:

- Design reviews and client presentations
- Site layouts and massing studies
- Real estate sales and marketing models
- Individual building elements

Start yours: 3dnearyou.com/quote

Real estate presentation models

Give buyers, investors, and boards something they can walk around. Presentation models and massing studies built from your plans, rendered to your scale.

Concept render - not a photograph of completed customer work.

Popular for:

- Development and sales galleries
- Zoning and board presentations
- Concept and massing studies
- Site context models

Start yours: 3dnearyou.com/quote

Product prototypes

See the shape. Check the fit. Put a concept in someone's hands before moving on to the next iteration. From a finished file or a sketch on paper.

Concept render - not a photograph of completed customer work.

Popular for:

- Form and fit checks
- Enclosures and housings
- Assembly and ergonomics reviews
- Investor and pitch demos

Start yours: 3dnearyou.com/quote

Education & classroom models

Turn abstract ideas into objects students can explore - from geometric forms to hands-on STEM demonstrations, printed to order for your class.

Concept render - not a photograph of completed customer work.

Popular for:

- STEM demonstrations
- Geometry and math manipulatives
- Science models
- Custom teaching sets

Start yours: 3dnearyou.com/quote

Hospitality & front-of-house displays

Custom display stands, sign holders, and practical front-desk pieces for hotels, restaurants, clinics, and offices - made around your space.

Concept render - not a photograph of completed customer work.

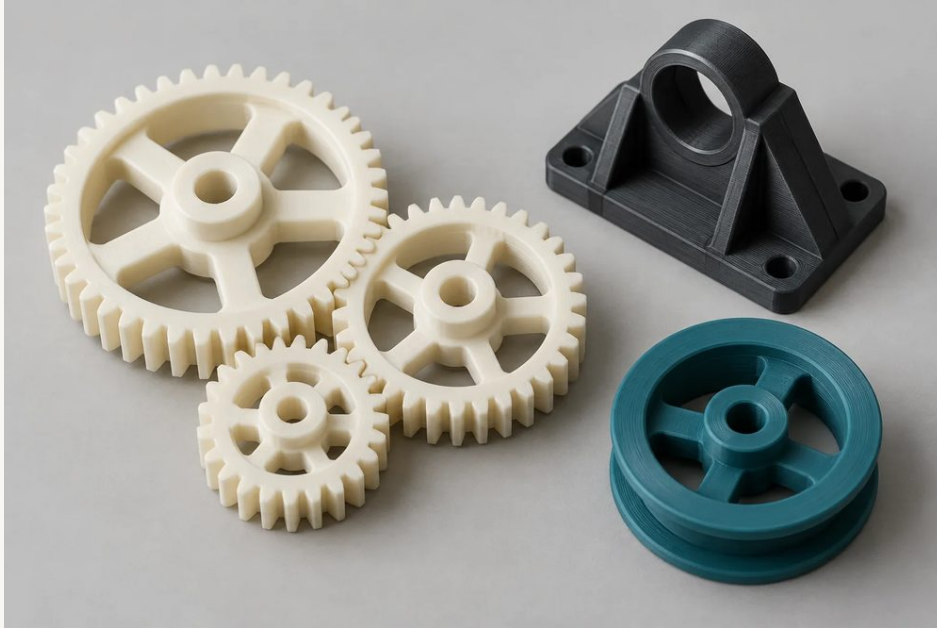

Popular for:

- Reception and front-desk pieces
- Sign and menu holders
- Wayfinding and display stands
- Branded countertop items

Start yours: 3dnearyou.com/quote

Organizers & custom plastic parts

Holders, organizers, covers, and non-critical parts designed around your dimensions - for the part you can't find anywhere else.

Concept render - not a photograph of completed customer work.

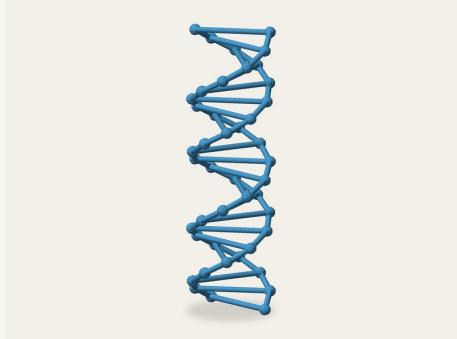

Popular for:

- Workspace trays and caddies
- Replacement covers and housings
- Mounts and brackets
- One-off small parts

From what if to what is next

01 Share your idea

Send your file, sketch, photo, or PDF with dimensions, quantity, and a deadline. No 3D file yet? That is a perfectly good place to start.

02 Find the right approach

We review the design, material, finish, price, and schedule with you - every project is quoted individually.

03 Make it real

After approval, we print, check, and prepare your project for delivery, with free shipping across the U.S.
